KEY FEATURES

WITH VECHAIN

FEE DELEGATION

Health insurance providers cover gas fees for clients in order to promote use of the dApp and fitness activity.

DUAL-TOKEN SYSTEM

We are able to distinguish between VET and VTHO as VTHO is used only for accessing/writing data while VET is used for incentivization.

CONNEX

Connex serves as our middle ware for deploying smart contracts, transferring VET, and more!

FUTURE OF VEHEALTH

1

HOMOMORPHIC ENCRYPTION

Fould allow the transfer of encrypted data within a fully private smart contract.

2

MARKETING STRATEGY

VeHealth would offer incentivizing partnerships with local health insurance companies and host influencer conferences with industry professionals.

3

TOKEN INHERITANCE

Utilize the child property of NFTs to store temporal data through only one NFT and its address property.

PROJECT SAVINGS

Currently, around **30% of people** reach 10,000 steps daily, and they **miss out** on potential fitness incentives.
